I would give Quibli a pet cat. Maybe an Egyptian Mau, which is one of the few types of cats breeds that are naturally dappled. They are alert and cunning, like Quibli. He would let it prowl around at dusk to hunt for mice and it would feed itself. Quibli is pretty proactive it seems as he is always hunting for enigmas, ot tough problems that he can solve. He is inteligent, handsom, and he has good intentions. So, he would not want to be hassled with the task of feeding a pet ct. The cat would probably be some kind of guard or friend when Quibli is lonely. If the cat is a boy he would likely name him Cobra and if it is a she-cat, he'd name it Echo. These are mysterious names. perfect!

-The OC squad bursts in, Flare the Sky-wing knocks down a table from his large size-

Flare, The kind Skywing with too little fire: "Are we talking about pets? Can I have a pet bunny?"
Snakebite, the undersized Mudwing: "Flare, you already have *thirty-two* rabbits."
Flare: "Awww..."
Jackal, The sassy Sandwing who Snakebite has a crush on: "Well, no matter what you people think I will have my grizzly bear!"
Snakebite: "Yeah, Yeah..."
Seafoam, the timid Seawing: "I think a octopus would be pretty cool... they're almost as smart as us..."
Jackal: "They're oversized fish!"
Seafoam: "Oh... okay..."
Palm, the swift Rain-Wing who just got here: *panting* "Overheard the conversation outside, thinking about training a monkey to bring me food."
Snakebite: "Hey that's a good idea!"
Palm: "Of course it is. I made it after *pant* all."
Flare: "We should get going. I think we're taking up the next guy's time."
From far away: *"You are!"*
Jackal: "Why should we care what they think?"
Seafoam: "That's kinda rude..."
-Fighting-
Palm: "Why don't we ask Snakebite?"
-Everyone turns to Snakebite, the group leader-
Snakebite: "Err..."
-Snakebite looks from Jackal, his love, to Flare who is obviously right-
Snakebite:*sighs* "Flare is right. We should go."
-Everyone either cheers or curses, then leaves-

Clay would have a pet rock named Jerard. You know, so he can't eat it.
Tsunami would have a pet swordfish named Swoosh. So she can race it around the ocean.
Glory already has a pet sloth named Silver...
Starflight would have a seeing eye scavenger named Wittness. So it can lead him around.
Sunny would have a cute dog named Philip. Just cause It makes sense.
Moon would have a pet sloth named Hope. So it can cuddle with her.
Winter has a pet scavenger named Bandit. Idk why.
Peril has a pet rock named Scorch. She talks to it.
Kinkajou has a pet sloth named Hugs. You can guess why.
Turtle has a pet turtle named Flash. He enchanted it so he wouldn't loose him.
Qibli would have a pet lizard named Crow. He likes to look at him.

I think that my OC,(Seaspray the Seawing) would have a tiger, maybe one that lives in a chain of islands in the bay of a thousand scales, that is really good at swimming, and has been enchanted to breathe underwater if needed. I would give moon a small sooty owl that gets scrolls for her when she is sad. I can also imagine Peril with some sort of dog that Scarlett made chameleon enchant after she lost Peril, really big and black, with a fiery mane on it's back, I would name it Bonfire.
